

Create a Student Group

In order to provide students with access to Yumu you need to create a Student Group. If you have previously created Student Groups for your students skip to: **How to share the Virtual Big Sing resources with your students** (further down this information page).

To create a Student Group

- Go to “My Students Groups” in the “My Workspace” area of the website
- Click the big green “Create Group” button
- Give the group a name in the window that pops up
- Click on the “Create a new student group” button

To Add Students

- Click the “Add Students” tab and follow the instructions on screen, or in [this help article](#).

How to get your students’ login details

In the “View Students” tab for the group you have a few options for providing your students with their login details (see the screenshot below). You can download student welcome letters that include the login details and a special invite token for students. In addition to the individual letters you can also download a single pdf that contains all of the letters. There are also options to download a spreadsheet or sticker sheet with all the login details.

View Students (54) Add Students Assignments (2) Yumu Packages (6) Yumu Activity Assessment Evidence (3)

View Students

To add more students click 'Add Students'.
You can reorder the table by clicking on the column names.

 Welcome letter for every child with their username and password

 Printable sticker sheet, with each student's username and password.

 Spreadsheet of all usernames and passwords of students in this group

First name	Last name	Welcome Letter	Login details	Assessment Evidence	Remove Student
Adrian	Sherwood	 Login letter	View / Edit	2 items	Remove
Osbourne	Ruddock	 Login letter	View / Edit	2 items	Remove

How to share the Virtual Big Sing resources with your students

(Resources available from 18/05/20200)

- Click on the “Sing” tab
- Click on the “Virtual Big Sing” tab on the right-hand side of the page
- Click on the “Launch Virtual Big Sing” on the left-hand side of the page
- Click on “+Group” on the tab at the top of the resources
- Click on the Student Groups you want to share the resources with
